

ETH Rome

Hacking history, shaping the future.

The 1st web3 **Hackathon** in Italy.

6-8TH OCTOBER 2023

SPONSOR DECK

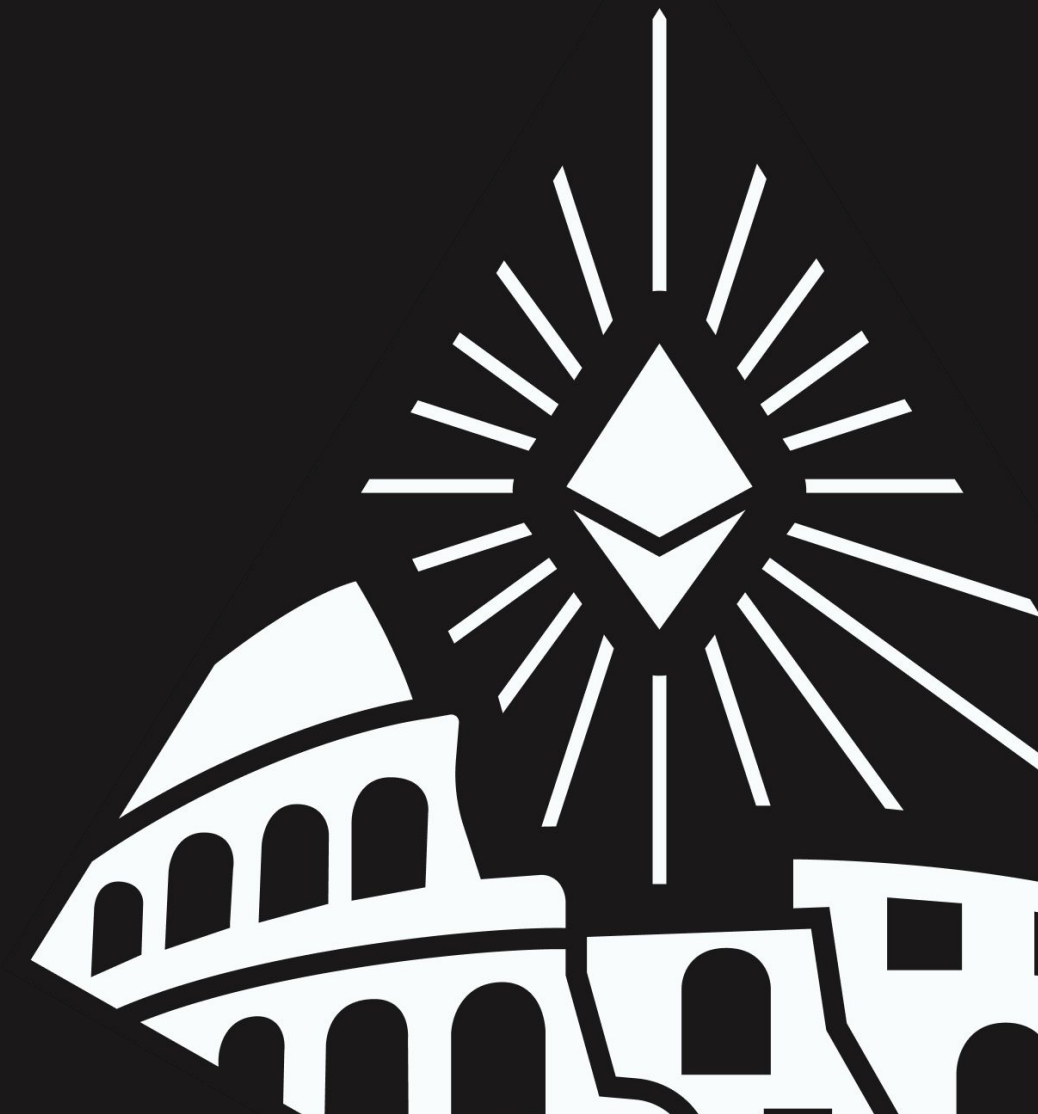

Hosted by  **urbe.eth**

Web3 is enabling us to leverage collective intelligence and find better answers, but public ledgers and distributed systems still pose great challenges to overcome.

In order to deliver social and political change we must protect progress within the garden of our rights.

***ETHRome stands for
privacy, decentralization,
and censorship resistance.***

Hackathon • Workshops • Community Gathering • Innovation Festival

Conquering the dWeb, one builder at a time

500+

Members

20+

Community
Projects

8

IRL Events

7

Delegation
trips worldwide

Layer 0 will always be the people.

We foster **bottom-up innovation** and **human-composability** to build with care.

Urbe Delegations

We organize groups to attend most of the conferences and hackathons worldwide.

UrbeTalks

Monthly meetups for engaging in open discussions, sharing knowledge, and networking.

Coworking Wed

Weekly gatherings to develop internal projects and establish meaningful IRL relationships.

PRESENTING

ETH Rome

Hacking history, shaping the future.

ETH Rome

Gathering the best **Hacktivists** working on **Governance & Privacy**.

300

Hackers

40

Hours of coding

7

Hours of workshop

30k

Prizes (\$)

TRACK 1

Games of ZKs

TRACK 2

DAOs & Dragons

SPONSOR

Bounties

Game of ZKs

TRACK 1

Who will seat on the ZKThrone?

This track will challenge **hackers** to explore the full potential of ZKP technologies and develop novel applications that prioritize privacy and security.

A unique opportunity for forward-thinking **sponsors** to gain exceptional exposure, establish valuable connections, and demonstrate support for the future of privacy.

Mentors

Senator sponsors will nominate the mentors for this track

Track jury

A team of independent judges with outstanding expertise in ZK technologies

Prizes

10k \$ for the three best projects

DAOs & Dragons

TRACK 2

Who will conquer the world of D&D?

Hackers will showcase their skills in implementing decentralized governance infrastructures and decision-making mechanisms. The goal is to develop user-friendly interfaces and advanced tools that enable seamless interaction with on-chain organizations.

Seize the chance to gain unparalleled visibility, forge valuable connections, and showcase your unwavering work on decentralized governance.

Mentors

Senator sponsors will nominate the mentors for this track

Track jury

A team of independent judges with outstanding expertise in decentralized governance
