Governance & Privacy

General

Bounties

Governance & Privacy

About:

The main ETHRome hackathon track is focused on several popular and intriguing tech trends. These include creating on-chain organizations, developing DAO tools, and implementing privacy-enhancing technologies like Zero-Knowledge proofs, anonymization techniques, and encrypted communication tools.

Mentors: The Gold sponsors can each nominate two mentors for this track.

Track Jury: A team of independent judges with excellent expertise in governance and privacy.

Prizes: 10k \$ for the best three.

General

About:

The General track is for any innovative project that does not pertain to governance or privacy areas, such as DeFi, public goods, security, and gaming solutions.

Mentors: The Silver sponsors can each nominate one mentor for this track.

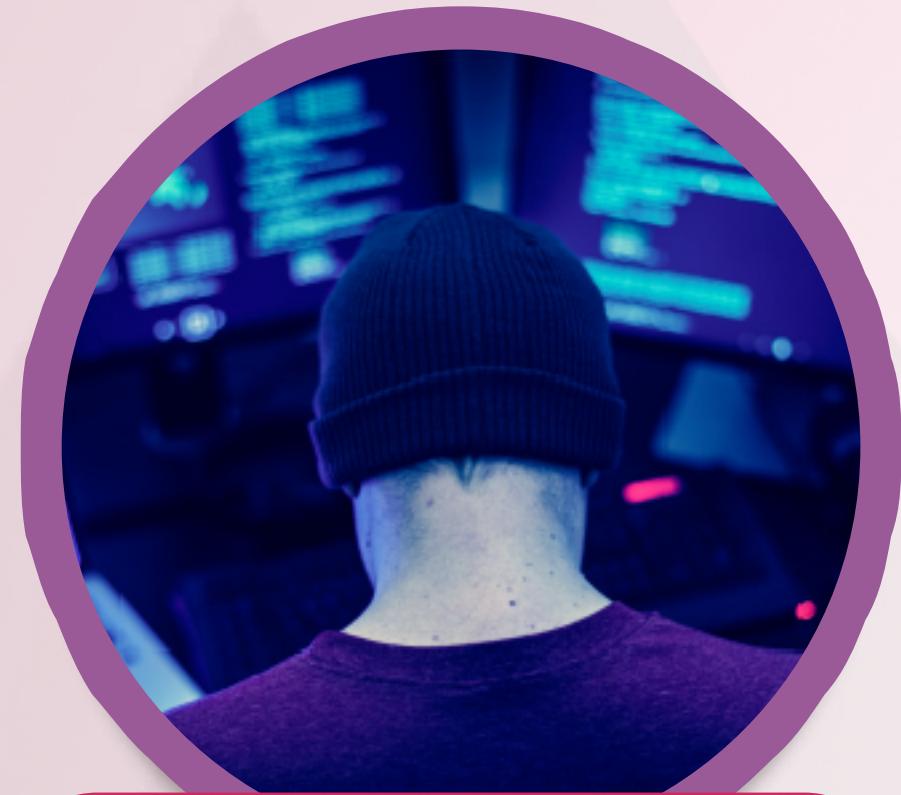

Track Jury: A team of independent multidisciplinary judges.

Prizes: 10k \$ for the top five projects.
