ETH Rome

Hacking history, shaping the future.

The 1st **web3 Hackathon** in Italy.

6-8TH OCTOBER 2023

SPONSOR DECK.

Hosted by **urbe.eth**

Web3 is enabling us to leverage collective intelligence and find better answers, but public ledgers and distributed systems still pose great challenges to overcome.

In order to deliver social and political change we must protect progress within the garden of our rights.

ETHRome is a call to build better around privacy, decentralization, and censorship resistance.

urbe.eth

The leading web3 community in Italy.

Layer 0 will always be the people.
We foster **bottom-up innovation** and **human-composability** to build with care.

CONQUERING THE DECENTRALIZED WEB, ONE BUILDER AT A TIME.

urbe.eth

Urbe Delegations

We organize groups to attend most of the conferences and hackathons worldwide.

UrbeTalks

Monthly meetups for engaging in open discussions, sharing knowledge, and networking.

Coworking Wed

Weekly gatherings to develop internal projects and establish meaningful IRL relationships.

ETHRome

Gathering the best **Hacktivists** working on **Governance & Privacy.**

300
Hackers

40
Hours of coding

Bounties

Game of ZKs

TRACK 1

Who will seat on the ZKThrone?

This track will challenge **hackers** to explore the full potential of ZKP technologies and develop novel applications that prioritize privacy and security.

This is a unique opportunity for forward-thinking **sponsors** to gain exceptional exposure, establish valuable connections, and demonstrate their support for the future of privacy in the Web3.

Mentors

Senator sponsors will nominate the mentors for this track

Track jury

A team of independent judges with outstanding expertise in ZK technologies

Prizes

10k $ for the best three projects

DAOs & Dragons

TRACK 2

Who will conquer the world of D&D?

Hackers will showcase their skills in implementing decentralized governance infrastructures and decision-making mechanisms. The goal is to develop user-friendly interfaces and advanced tools that enable seamless interaction with on-chain organizations.

These presets a rare opportunity for visionary **sponsors** to gain unparalleled exposure, forge valuable connections, and showcase their unwavering support for the future of decentralized governance.

Mentors

Senator sponsors will nominate the mentors for this track

Track jury

A team of independent judges with outstanding expertise in decentralized governance
Prizes

10k $ for the top five projects
